

Summary

Our strategy for 2020-2025

Our Vision	Our Aims	Our Values
We have a vision for a future where children always receive outstanding care – wherever we see them, whatever we see them for. Care will be integrated and child centred. We will work with children and their families to ensure pathways are designed around their needs. We will take a leading role in improving regional, national and international child health through direct services, education, research, outreach and more. We will be an inclusive organisation, valuing diversity and treating everyone with respect. We will be driven by the needs of children and young people, and our colleagues will finish each day knowing the huge difference they've made.	Outstanding patient care Brilliant place to work Leader in children's health Outstanding patient care Empowering patients and their families • personalised care experience • increased support for those with complex care needs • seamless experience across both physical and mental health services • smooth transition to adult services • a centre of excellence providing leadership, sharing best practice and supporting other professionals and providers Brilliant place to work Improving colleague engagement • more inclusive workplace • greater health and wellbeing support • listening to the voices of all professions • strengthening clinical input to decision making • talent management • workforce planning • recruitment and retention giving colleagues agency to act • being a values-led organisation Leader in children's health Continuing work in partnership in Sheffield, in the South Yorkshire and Bassetlaw Integrated Care System and across the world • exploring new patient care opportunities in collaboration with others • sharing expertise, research and best practice • further development of research • embracing technology to support care • creating the first ever Centre for Child Health Technology	we care compassion We are led by kindness for all – for our patients, their families and our colleagues. accountability We always strive to do the right thing. We own responsibility for our successes, failures and understand where we need to improve. respect We value differences and treat everyone fairly and consistently. We will actively tackle inequality and will foster a culture of inclusion. excellence We are constantly working to improve, collaborate and innovate in our work.
